Sabbath Evening.

BY GEORGE D. PRENTICE. 'Tis holy time. The evening shade Steals with a soft control
O'er nature as a thought of Heaven Steals o'er the human soul: And every ray from yonder blue, And every drop of falling dew. Seems to bring down to human woos From Heaven a message of repose. O'er you tall rock the solemn trees

A shady group incline.
Like gentle nuns in sorrow bowed
Around their holy shrine;
And o'er them now the night winds blow, So calm and still, the music low Seems the mysterious voice of prayer Soft echoed on the evening air.

The mists, like incense from the earth; Rise to a God beloved, And e'er the waters move as erst.
The Holy Spirit moved: The torrent's voice, the wave's low hymn, Seem the fair notes of scraphim: And all earth's thousand voices raise. Their song of worship, love, and praise.

The gentle sisterhood of flowers
Bend low their lovely eyes.
Or gaze through trembling tears of dew
Up to the holy skies:
And the pure stars come out above,
Like sweet and blessed things of love,
Bright signals in the ethercal domb To guide the parted spirit home.

There is a spirit of blessedness In air and earth and Heaven, And nature wears the blessed look Of a young saint forgiven: Oh, who, at such an hour of lo Can gaze on all around, above, And not kneel down upon the sod With Nature's self to worship God!

To Dr Marchin :- I have ten years been troubled with Female complaints-prolapsus, Uteri, and all the attending difficulties-at times rendering my life most miserable. I have had the at-tendance of some of the best physicians, with but little raccess. The most that they could do was to refleve—a care was out of the question. For five mouths before commencing with your medicine, I had not been able to perform any labor, could walk but a few steps at a time and scarcely times, and a complete ass went out of doors—in short, I was completely prostrated both in body and mind. I expected to drag out the rest of my days in suffering and mis-ery: but reading your adversisement, was included to try your invaluable medicine, called 'Uterine Catholicon,' as the last resort. I had not used it a week before I felt like another woman. By the use of three hottles, I was enabled to perform all the labor, for six in the family, with ease, and could walk any where in the noeighborhood, with outinjury. Nothing but a fense of duty to you and the enfiering community, has induced me to state my case to the public; and I can safely rec-
